

What is claimed is:

1. A lubricant intended for solid surfaces and comprising a partially fluorinated compound of formula 1

5

where

RF is a perfluorinated radical of formula $\text{F}(\text{CF}_2)_n-$,

10 n is a number from 1 to 20,

A is C_1 - C_{30} , preferably C_1 - C_{18} , alkylene.

B is arylene having 6 to 14 carbon atoms or is a saturated or unsaturated monocyclic or polycyclic hydrocarbon having 3 to 30, preferably 3 to 18 carbon atoms,

15 D is hydrogen or C_1 - C_{30} , preferably C_1 - C_{18} , alkyl,

a is zero or 1,

b, c, and d are zero, 1 or 2 and e is zero or 1, with the proviso that b and c are not simultaneously zero.

20 2. The lubricant as claimed in claim 1, comprising a compound of formula 1 where $a = 1$, $b = 0$, $c = 1$, $d = 1$, $\text{D} = \text{H}$, and $e = \text{O}$ and the remaining symbols have the definitions given in claim 1.

3. The lubricant as claimed in claim 1, which is ski wax.

25

4. The lubricant as claimed in claim 1, in the form of a solid, a solution or a dispersion.

5. The lubricant as claimed in claim 1, comprising further fluorinated or
30 nonfluorinated lubricants.
